

Annual CACFP Training
Grow It! Try It! Like It!
Eat food, get dirty, play games!

Join us as we explore gardening to table in the child care setting.

We will:

- Have examples of lots of different ways to do container gardening. There's sure to be one that works for you.
- Make and taste simple easy to make recipes using the produce you grow.
- Discover fun and interactive ways to get parents involved.
- Share provider tested ways to encourage the choosy eater.
- Develop ways to get children involved and active as they garden.

Attendance at this fun/interactive workshop will fulfill the training requirement for the food program. In other words, if you attend this workshop you will not have to do the in-home packet.

Registry certificates toward your continuing education requirement for regulation will be available for workshop participants. There are no continuing education hours for the in-home study packet.

Tuesday May 5, 2015

6:30—8:30 PM

Hilton Garden Inn

1015 Lombardi Ave. Green Bay

Tuesday, May 12, 2015

6:30—8:30 PM

Fox Valley Child Care Resource and Referral

1001 W. Kennedy Avenue, Suite A, Kimberly
