

# **Special Dietary Needs and the CACFP**

USDA requires Programs make reasonable modifications to accommodate participants with **disabilities** to provide equal opportunity to participate. This is <u>required only when</u> supported by a written medical statement from Wisconsin Licensed Healthcare Professional authorized to write medical prescriptions: Physician, Physician Assistant, Nurse Practitioner (APNP)

What is a disability? I

Physical or mental impairment that substantially limits one or more major life activities (includes eating, breathing, digestive and respiratory functions, etc.). Most physical and mental impairments will constitute a disability, it does not need to be life threatening.

Ex. Digestion is impaired by lactose intolerance, whether or not consuming milk causes severe distress.

What is NOT a disability?

Eating certain foods or eliminating foods from the diet due to a general health concern and/or preference.

Ex. Request that a participant does not drink cow's milk because of a preference, not because the participant has lactose intolerance.

# **DISABILITY**

#### Supported by a valid written medical statement

Program must offer a reasonable modification(s)\* that effectively accommodates the participant's disability & provides equal opportunity to participate in CACFP

Modification(s) may or may not meet CACFP meal pattern requirements

#### \*Reasonable Modification(s):

- Related to disability or limitation caused by disability
- Not required to provide exact modification requested, however, must work with the family to determine a reasonable modification that effectively accommodates the disability. Ex., not required to provide a particular brand name, but must offer a substitute that does not contain the specific allergen
- A disability may require modifications to more than one meal component
- Programs may never require the family to provide the accommodation

Effectively accommodate ALL participants with the same type of disability: Design a plan to accommodate common disabilities. Many can be managed within the meal pattern when a variety of foods is available. Examples:

- Offer one type of lactose-free milk to accommodate participants with lactose intolerance.
- Have a variety of fruits on hand, so participants with an allergy to a particular fruit can be served a different fruit

## **Written Medical Statement:**

A valid medical statement for a disability must be completed and signed by a WI Licensed Healthcare Professional authorized to write medical prescriptions: Physician, Physician Assistant, or Nurse Practitioner (APNP)

It must include the following information:

- 1. Description of impairment (reason for request)
- 2. How to accommodate the impairment (e.g. food(s) to be avoided and recommended substitution(s))

Seek clarification if statement is unclear or lacks sufficient detail so that a proper and safe meal can be provided

#### **Examples of Medical Statements**

#### **ACCEPTABLE:**

## STATEMENT

Cal is lactose intolerant and cannot drink cow's milk. He should be served almond milk.

Dr. Dan Physician

#### **NOT ACCEPTABLE:**

## **STATEMENT**

Serve Sam almond milk.

Dr. Dan Physician

Disability not supported by a valid medical statement:

Programs may choose to accommodate requests related to a disability not supported by a valid medical statement if the requested modifications can be made while meeting CACFP meal pattern requirements.

Such meals are reimbursable.

# **NOT A DISABILITY**

(Non-disability special dietary need request)

Request is **not** supported by a valid written medical statement or request is for religious, ethnic or lifestyle preference (vegetarian, organic)

Request is supported by a written statement from the parent/guardian

Programs are not required, but *may choose* to accommodate requests

Meal accommodation(s) that **meet** CACFP meal pattern requirements are reimbursable Meal accommodation(s) that do not meet CACFP meal pattern requirements are not reimbursable

# **Examples of non-disability special dietary need requests:**

Request for a non-creditable beverage

The following beverages are not creditable. When served in place of milk, meals and snacks cannot be claimed for reimbursement

- Non-dairy beverages not nutritionally equivalent to cow's milk including almond, cashew, coconut, hemp, oat and rice milk
- > 2% milk
- Water

Request for ethnic, religious, vegetarian reasons

- Programs may choose to supply creditable food(s) and/or a creditable beverage substitute. Meals and snacks can be claimed for reimbursement
- Parents may choose to provide <u>ONE</u> creditable component; the Program must supply all other components with creditable foods. Meals and snacks can be claimed for reimbursement

#### **Special Dietary Needs Tracking Form:**

- 1. The program completes one for <u>each participant</u> accommodated for a disability or non-disability special dietary need
- 2. Keep form and documentation, as specified, on file Find in Guidance Memorandum 12

Call or email your consultant when you have a question about special diet needs

#### Written Statement from Parent/Guardian:

- Identifies the non-disability special dietary need, including foods not to be served and allowable substitutions
- 2. May include a statement that the parent/ guardian chooses to provide foods (if applicable)

## Accommodate requests within the meal pattern:

In many cases, requests can be managed within meal pattern requirements when a well-planned variety of foods is available. Examples:

- Offer one type of creditable soymilk to accommodate participants requesting a nondairy beverage. Because this modification is creditable, the meal meets CACFP requirements and is reimbursable
- Accommodate vegetarian eaters by serving creditable meat alternates

#### **Parent Provided Component:**

A parent/guardian *may choose* to provide <u>one</u> <u>creditable component</u> towards a reimbursable meal for a non-disability special dietary need

- Religious
- Ethnic
- Lifestyle preference (organic, vegetarian)
- Other
  - Health reason not support by a valid written medical statement

# Special Dietary Needs and the CACFP What to Do Next:

| De  | signate Responsible Staff   |  |
|-----|---|--|
|     | Designate staff responsible for managing all special dietary needs. This point person will ensure:  Valid documentation is on file for participants with disabilities and participants' needs are met  Meals/snacks for non-disability special dietary needs meet CACFP meal pattern requirements  Only creditable meals/snacks for non-disability special dietary needs are claimed for reimbursement  |  |
| Ob  | tain Appropriate Documentation  |  |
|     | Special Dietary Needs Tracking Form complete for <u>each participant</u> with a disability or non-disability spe  |  |
|     | dietary need request  Disability: Written medical statement for physical or mental impairment that substantially limits one or  |  |
|     | more major life activities. Must be signed by a Wisconsin Licensed Healthcare Professional authorized to write medical prescriptions (Physician, Physician Assistant, Nurse Practitioner (APNP))  |  |
|     | Non-disability special dietary need: Written statement from family, DCF <i>Health History and Emergency Care Plan</i> form, medical statement from a non-licensed health care professional authorized to write medical prescriptions, or statement from a licensed health care professional that specifies a family's dietary preference, not a disability  |  |
| Tra | nin Staff on Accommodating Disabilities   |  |
|     | Participants with a disability that affects the diet must be accommodated. It is vital to follow the directive of a written medical statement to ensure the safety of a participant   |  |
|     | Kitchen staff must know how to properly manage special dietary needs and make substitutions (ex. know appropriate food substitutions, reading labels for food allergens).   |  |
|     | Classroom staff must inform the designated staff responsible for managing special dietary needs when a family brings in a food/beverage to the classroom so the request can be handled appropriately.   |  |
|     | Staff completing meal counts must know that <a href="mailto:meals/snacks">meals/snacks</a> CANNOT be claimed when:  A participant is served a meal or snack that does not meet meal pattern requirements unless the participant is being accommodated for a disability that is supported with a written medical statement  A participant is served non-creditable food item(s) provided by the Program or the family  A participant is served more than one component supplied by the family  Examples: |  |
|     | <ul> <li>□ Non-creditable beverage is provided by Program or family</li> <li>□ Family provides two components of a meal, ex. the grain and meat alternate</li> <li>□ Family provides a non-creditable component, ex. non-creditable meatless substitute</li> </ul>  |  |
| Me  | enu Evaluation  |  |
|     | Review menus and determine if your program will design a meal plan within the CACFP meal pattern to   |  |
|     | accommodate common disabilities or other non-disability requests. Examples:   |  |
|     | Offer lactose-free milk to accommodate participants with lactose intolerance  |  |
|     | <ul><li>☐ Offer a creditable non-dairy beverage nutritionally equivalent to cow's milk</li><li>☐ Offer a daily vegetarian option</li></ul>  |  |
